## 1837 – 1901

Queen Victoria of Great Britain reigned for 63 years, longer than any other British monarch. The photograph above shows her, seated center, with members of the royal family in 1881. The queen's oldest son, seated right with cane, was crowned King Edward VII in 1901.

Bettina

Born in Kensington Palace, London, on May 24, 1819,

Queen Victoria, the longest reigning monarch in British history, populated most of the thrones of Europe with her descendants. Among her grandchildren were Emperor William II of Germany and Alexandra, consort of Nicholas II of Russia.

with Prince Albert in  
1854
